**Subject: Study Tour of "Middle East Models of Infrastructures Developed in Dubai, Abu Dhabi (UAE)"**  
**from 06-13 June, 2020**

Dear Sir/Madam,

National Institute of Secretariat Training & Development (NISTD), Established by Govt. of National Capital Territory of Delhi, serves as the autonomous body and representative of the various segments of Indian Industry. The Institute provides the impetus and the Organizational Infrastructure to raise Quality level across the Industry. This helps to secure wider appreciation of the Interest of the Construction Business by the Govt.

All the Emirates are connected by a modern highway, which is one of the best cities in the Gulf of Abu Dhabi. In recent years, the United Arab Emirates has invested heavily in the construction of transportation infrastructure, and efforts to build Dubai, Abu Dhabi an air, water and tourism hub. Driven by the huge investment, the United Arab Emirates infrastructure competitiveness ranked third in the world.

While there is no match for experimental learning, one needs to keep abreast of Emerging Technologies and Good Practices to improve one's productivity on the project and overall work, which are generally technical in Nature. It's our Great Pleasure to convey you that NISTD organizes Training Programs for professionals on Middle East Models of Infrastructures Developed in UAE.

Study Tour Middle East Models of Infrastructures Developed in UAE. The areas of emphasis would be:

- Highly developed surface transport infrastructure,
- State-of-the-art telecommunications and virtual 'smart' infrastructure,
- A sophisticated financial and service sector, Industry-leading exhibition and conference venues,
- High-quality office and residential accommodation, Reliable power and water utilities
- First-class hotels, hospitals, schools, shops, parks and recreation facilities, world-leading aviation infrastructure

The Development of Cities would provide better Job Opportunities for the Working Class, better Living Conditions for the family, Better Recreational and Amusement Facilities. In short, a better life style for the citizen. With a view to Provide Ideas, Concepts and Exposure to the Decision Makers, NISTD is planning to organize a Study Tour of the proposed city as on Date 06-13 June, 2020 (07 days) as their Infrastructure is considered as one among the best in the World. Course Fee is INR 3,69,000.00 (Three lakh Sixty-Nine thousand rupees) per Participant + 18 % GST (Detail Enclosed).

Study tour participants: Bureaucrats, Engineers, Executives, Finance officers, Decision makers, Urban planners, architects and landscape architects, representatives of cultural organizations, and elected officials. These professionals will visit a range of projects and gain insight through meetings with city officials, site visits to ongoing projects, and meetings with community leaders. Tour focuses on city in transition and the rehabilitation of run-down neighborhoods in Dubai, Abu Dhabi.

The site visits are planned to give firsthand experience of the facilities providing services to the city. We work with you to manage all elements of your travel in an efficient, cost effective and ethical manner. A brief note about the Program is enclosed for your reference. May I request you to Convey your Willingness to participate in this program, and also the nomination of the other Officers from your Organization, who may like to participate to Develop the Nation.

Thanking You,

For National Institute of Secretariat Training & Development

*R. Kumar*

(Director General)

Nearly 97% of the electricity production using natural gas as fuel, the remaining 3% is the use of oil, coal and renewable energy grid, completed in 2011 the GCC unified transmission system between members in an emergency when sending electricity power.

Tour are very important in several ways and one of them is that they help trainees to learn through visual experience and can be an interesting way to explore new things for both the learner and the faculty.

These tours motivate the learners to have interest in learning. No nation has embraced Total Quality Management, e-commerce and e-government with greater enthusiasm than UAE. Such innovations have given UAE a competitive edge and an accelerated growth rate that few could match. The Complexities and Ever-changing Nature of today's Business Environment necessitates constant Evolution and Upgradation of one's Knowledge repository.

Note: There can be some changes in the Itinerary due to circumstances beyond our control
