**STORES SECTION (DO)**

Ref. No. **05/SO(DO)/PCCSM/PAC/23-24/M&E**

Date: 02.11.2023

Subject : Purchase of Immuno CAP & Elisa test System on Proprietary basis- **inviting comments thereon.**

\*\*\*\*\*

On specific requirement of Deptt. of PCCSM , Store Section (DO) is in the process of procurement of Immuno CAP & Elisa test System on Proprietary basis from M/s ThermoFisher Scientific. (Through M/s. Manvy Pharma). Following documents have been uploaded.

1. Technical Specification duly signed by TSEC.
2. Departmental PAC Certificate
3. PAC cum compatibility Certificate ( By the firm )
4. Performa Invoice from principle/authorized distributor M/s Manvy Pharma.
5. Manufacturer's Authorization Certificate by M/s. TherFisher Scientific in favour of M/s Manvy Pharma.
6. GEM non availability Certificate.
7. Declaration regarding Make in India.
8. Land Border Declaration.
9. Fall clause undertaking

Now, in view of the above, the said proposal is uploaded on AIIMS website for period of 15 days with the view to invite objections w.r.t. proprietary nature of the product from the OEC's or their authorized distributors. The comments/objections if any should be received in office of Store Officer (FSC), Store Section (DO), Animal House Building, Near Biotechnology Building at AIIMS on or before 17.11/2023 upto 12:30 P.M. failing which it will be presumed that any other vendor is having no comment to offer and case will be decided purely on merit.

  
(MANOHAR ARYA)  
STORES OFFICER (D.O)

Qty: 01 Specifications of ImmunoCAP and Elia Tests System

Qty 01 No.

Approx. Cost: 46 lakhs

1. A benchtop instrument to aid in the diagnosis of allergic and autoimmune disease for laboratories with limited space. It must provide fully quantitative results of clinically relevant antibodies and based on fluorescent enzyme immunoassay (FEIA technology).
2. The specific IgE assay should have Gold standard technology which is an in-vitro quantitative assay for measurement of allergen specific IgE.
3. Batch workflow with >42 samples, >48 Autoimmunity tests >96 Allergen tests.
4. System should run both autoimmunity and Allergy tests on the same platform.
5. Automation with Reagent and sample scanning with traceable 96 position carrier loading trays and on-board dilution.
6. Should be calibrated according to the WHO standards.
7. System should have storage of calibration curves for atleast 28 days.
8. System should be able to perform dispensing, washing, incubation and reading on the same instrument, and take care of evaporation control and external light elimination during incubation.
9. System should have automatic sample and on-board dilution facility capacity.
10. System should have touch screen for easy operation, minimal space requirement, easy to move within and between labs.
11. System should be network connected :- integration into Lab IT infrastructure, LIS connection for rapid and safe transfer of sample information and results, Connected to instrument software on external PC for easy stock management and ordering, software connection for remote troubleshooting support.
12. Daily-throughput:- Allergy -2 x 96 results per day/Autoimmunity -2 x 48 results per day.
13. System should have automatic cap dispensing, simplified maintenance, stand-alone or external PC connection option.
14. System should have large touch screen display to control all functions of the unit.
15. The system should have CE/US-FDA/ISO certifications.
16. Should be supplied with compatible external computer system
17. Should be supplied with compatible UPS with back up of 1 hour.
18. CMC/AMC should be provided as per AIIMS rules.
19. Rate list of consumable reagents should be provided.

Report ID: GEM/GARPTS/05112022/B4KJHS5HW1PU

Report Name: immuno cap & Elisa test

Generated By: Vijay Hadda , Department of Health and Family Welfare , Ministry of Health and Family Welfare

Generated On: 05/11/2022

Valid till: 05/12/2022

**GeM Availability Report and Past Transaction Summary**

GeM Availability Report and past transaction summary report is generated based on the specifications searched by the Buyer. The specification may be modified appropriately for searching relevant categories on GeM. Buyer may navigate to GeM category page by clicking on the category link to view category specifications and products/services available in the category.

*Order Count and Order Value displayed is on a cumulative basis since GeM inception.*

**1. Search String: immuno cap & Elisa test**

Search type: Product

- 1. There are categories available on GeM matching your requirements (as listed here). You can create a bid on GeM with a product closest matching your required specifications and add additional parameters in specifications through Corrigendum using RMS functionality.
- 2. If you feel that category TP needs updating you can submit category updating request also through RMS.
- 3. If you do not want to use any of the above option and want to proceed for procurement outside GeM, please suggest the specifications of the required product for creation of new category on GeM for future procurement.

Search Result: Category available/suggested on GeM but marked as "not matching requirements" by the buyer with undertaking as under:

*It is certified that I have thoroughly checked all probable categories suggested by GeM and I am satisfied that the product required is not covered / does not fall in any of the suggested categories and can not be procured under any of these categories even after inclusion of List of Values( LOV) wherever possible in category specifications of suggested categories. It is also certified that the technical specification requirement are such, that these can not be covered even by adding specification parameters using ATC in any of the GeM suggested categories. This is a one-time requirement hence new category creation is not proposed / or requirement is recurring but request for new category creation will be submitted separately post generation of GeMARPTS.*
