Subject: Procuring Propriety Equipment QRS-101 Therapy under ICMR funded project.

Dear Sir,

Submitting all documents towards the purchase of QRS Therapy-101 equipment for project title "***Prospective randomized controlled trial to compare magnetic therapy to medical treatment for chronic back pain***" Project Code No. 11334 funded by ICMR, effect of QRS on Chronic back pain.

This is propriety equipment.

The Specifications of QRS-101 are as follow:

1. Intensity of Magnetic Fields uses maximum 40 micro-tesla:
 - a. Full Body Mats works at intensities of maximum 40 micro-tesla.
 - b. Pain Rescue Pillow applicator works at intensities of maximum 40 micro-tesla.
 - c. Please note:
 - i. Safety limit WHO is 100 micro-tesla
 - ii. Intensity of Earth Magnetic Field is about 50 micro-tesla.
 - iii. Thus QRS-101 is 100% Safe
 - d. Please note:
 - i. For most indications, the lower intensity is better than high intensity
2. Frequencies used by the QRS-Pulsating Electro Magnetic Fields between 1-1.000 Hz:
 - a. QRS-101 uses range of frequencies, but most frequencies are on the

lower side. QRS 'mimics' the frequencies of the human body, e.g. the beta, alpha, theta, delta frequencies of the brain.

b. Please note:

i. QRS-101 uses only low intensities and extremely low frequencies and is thereby 'massaging' the cells and only the QRS-frequencies are able to realize healing effects. If you use higher frequencies or intensities then the cells get into defence mode and do not allow for healing effect.

3. Wave form:

a. QRS-101 uses a patented e-function 'Fibonacci' wave form

4. Control Unit:

a. The QRS-101 control unit is easy to use

5. Customer can select 3 standard frequency programs:

i. Relax: Used for wellness purpose and used in the evening to promote sleeping

ii. Basis: Standard program for treating medical conditions

iii. Vital: Used for wellness purposes, often used in the morning for elderly persons with low energy

6. Customer can select 11 different intensities via 3 buttons:

i. Sensitive (level 0) – Medium (level-0) – Intensive (level-10)

9. Other functionalities:

a. EMF smog reduction. QRS uses patented to reduce the exposure to EMF, in particular to electrical fields, and also part to magnetic fields or dirty electricity. These 3 categories all operate in the 50hz/60hz range (close to the frequencies used by the human body) and are dangerous to the human health. QRS reduces this exposure. It blocks the interference from certain frequencies and acts like grounding mat.

10. Support:

- a. 5 year Comprehensive Maintenance
- b. Professional 2nd line customer and technical service by country QRS-Distributor
- c. Professional 3rd line customer and technical service by QRS-Germany

QRS-International AG is the sole product owner of the product QRS-101 Therapy System. And is the owner of the Intellectual Property and of the Brand name of QRS®.

Declaration:

In our role as product owner of QRS-101.5 Therapy System and other QRS products, we declare as follows:

- 1) Our products are manufactured on our behalf by **gbo Medizintechnik AG** (www.gbo-med.de) in Germany. Gbo Medizintechnik is our exclusive manufacturer worldwide. - 2) Our technology and our product QRS-101.5 Therapy system is Proprietary (please refer to separate proprietary declaration). The underlying technology of QRS® is Frequency Therapy. The intellectual property of QRS (part of which is patented) is based on use of extremely low frequencies which mimic the frequencies of nature and of the human body. Only when using these frequencies, intensities and wave forms is it possible to realize a healing effect on cellular level. No other company in the world has this technology which has been proven to be effective as a complementary therapy for all chronic diseases.

The 4-step-therapy - worldwide patented

Wherever there are high-voltage transmission lines in the air, in the ground, or in buildings, there is electro-smog.

Electro-smog can cause so-called energetic diseases, which can become chronic. Please note: for more than 100 years bacterial diseases are reduced, but chronic diseases (due to energy deficiencies) are increasing rapidly.

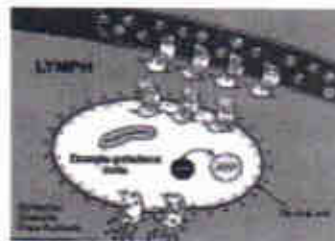

The healing frequencies of natural magnetic fields are not able to withstand the electro-smog fields, which means that the self-healing process of the body is being blocked. The Quantronic-Resonance-System stimulates the metabolism of the body due to the magnetic fields, thus it supplies energy and oxygen to the cells.

But: These non-natural healing magnetic fields can only function correctly, if a zero-field is being produced in the room at the very beginning. This means that the existing electro-smog has to be eliminated, because the mixing-up of the therapeutic frequencies with the electro-smog has a non-healing effect. QRS is the only producer who had patented the "electro-smog kill" in combination with the quantronic therapy.

The patent:
DEVICE FOR CONTROLLING

Every producer of magnetic field therapy devices claims that their product can regenerate cells, heal diseases, energize the cells by activating the cell metabolism. Cell metabolism is only possible with ion transportation.

Be careful with these statements: QRS is the only product with a worldwide patent on ion transportation due to many years of fundamental research work.

The QRS system is the only product that has the right to say it can transport hydrogen, calcium, sodium, potassium, chlorine and magnesium ions.

This ensures a better cell maintenance and eliminates toxic waste at the same time. QRS increases the oxygen within the cell. The oxygen diffusion rate is increased by 80 - 900 %, therefore ATP (energy) molecules will be formed.

This ensures a smoother transportation through contracted blood vessels and other affected tissue structures.

The patent:
DEVICE FOR TRANSPORTING IONS

In order to support the cell metabolism as well as to eliminate toxic waste, free radicals and slags, the voltage of the cell membrane has to be kept on a high level. To stop the aging process, we have to increase the energy within the cell. This builds energy molecules (ATP).

The cell-specific amplitude window ensures the building of these ATP molecules. This window within the body cell, which was discovered by QRS, ensures the ion transportation and therefore enhances the resonance phenomenon.

This is the only way for the ions, cell membranes and blood vessels to create a resonance. If this resonance exists, ions can be transported and the cell metabolism can be influenced. If this really works - such as with QRS - then the immune system of the body is stimulated as well as the body regeneration via an increase in proteins (in nerve cells these are the memory proteins), regeneration acceleration, electrogen changes of the cell energy, stimulation of metabolism, activation of hormone build-up. The patent was issued on these phenomena which are single prerequisite for the energy increase in the cell.

The patent:
DEVICE FOR TRANSPORTING IONS

No human being is like the other, and the biological and electro-biological circumstances within our bodies are changing daily, hourly, minutely via outside processes.

A professional quantronic therapy system needs to check the present health state of the particular person first in order to send the quantronic signal, specifically tuned to this body. This process supports, strengthens and optimizes the biological circle of the patient.

Does this sound futuristic to you? QRS as the only therapy has been able to detect and register the immediate effects within the body of a human being. An automatic adjustment already is available to the physician and will be available for private users in the near future. This will ensure an optimum in the effects for every single person. This QRS patent is protected worldwide as well.
