new diagnostic design

To whomever it may Concern

### Proprietary Certificate

This is to certify that NDD uses digital ultrasonic flow sensor technology for measuring flow & volume of lungs. This is a unique principle of measuring lung volumes and it requires no Calibration in any environmental condition. There is no other manufacturer on digital ultrasonic Flow sensor technology in the market.

All NDD products are based on digital ultrasonic flow sensor technology. They meet all international quality requirements including ATS/ERS.

Hence this product may be considered under proprietary item

Yours Faithfully
